

## Room Sizes and Seating Capacities

Our state-of-the-art computer laboratories and smart classrooms aid in the overall learning experience.

There are 4 computer laboratories, 6 classrooms, 1 consultation room, 1 meeting room, 1 resource area and places for students to hold discussions. We have the flexibility to reconfigure our computer laboratories and classrooms to cater to larger capacity and to different functional needs. Our meeting room can also be converted into a sick bay, when required.
